SYNOPSIS

Leaders start well but do not necessary end well. Sustaining leadership effectiveness for the long haul as one of the most critical challenges facing leaders today. What are the derailment factors? How do we develop a succession plan? How do you build emotional health in leadership? How do we keep focus? Bring your leadership team and join us at this conference and allow God to transform your life and your team.

SESSIONS

P1 Plenary Session 1: leadership Focus PETER CHAO

What leaders focus on drives and defines them. Distractions can swerve a leader’s direction and disappointments can plunge a leader into emotional tailspin. Paul is clearly focused when he declared “This one thing I do..”When leaders determine to keep their eyes on the critical, they will not be swayed by the urgent or dabble in the inconsequential.

W1 Workshop Session 1: Leadership Succession JOHN NG / JULIAN FOE

Succession planning is the most neglected plan in churches and organizations. Why is succession planning important? Is it biblical to plan for succession? How do we start looking at succession planning in church? How do we deal with leaders who may not be ready for succession?

W2 Workshop Session 2: leadership Derailment MICHAEL TAN / KOW SHIH MING

What are the factors that will derail a leader and diminish his or her effectiveness and credibility? What are the temptations that leaders are most susceptible to? In this workshop, we will look at how spiritual disciplines and accountability will help leaders keep focused, stay alert and be consciously dependent on God in moments of trial and temptation.

W3 Workshop Session 3: Leadership Emotional Health ELIZABETH LEE / BILLY CHAN

Burnt out or on the way to burn out? Stressed out and worn out? Stuck and not seeing the kind of growth in your own life nor in the life of your organization or church? In this workshop you will explore and experience the whole gospel for the whole person in a practical and life changing way - a strategy for discipleship that integrates emotional maturity and spiritual integrity for leaders.

P2 Plenary Session 2: Leadership Hot Seat (Dialogue) SPEAKERS

This is one of the highlights of this conference whereby participants ask the speakers pertinent issues and challenges facing their leadership. The speakers speak from their hearts and respond candidly to the Q and A session.

P3 Plenary Session 3: Leadership Sustainability PETER CHAO

Leadership that is effective has to go the distance. Successful leaders frequently shortchange the future for themselves and their organizations/churches by depleting their energy without renewal. Elijah’s powerful ministry plunged him into depression and drove him into spiritual wilderness. How God refreshed him is instructive for leaders who desire resources for sustainability.
