Synopsis

Ministry among students in schools is a strategically significant work because the health and future of our nation rest on our youths.

This ministry is fragile, with many uncontrollable variables – education policies, school authorities, teachers' availability, parental involvement and church support – which are important factors that can make or break the work!

It is therefore vital that Christian leaders in Malaysia appreciate and passionately support Students' & Schools' Ministry.

Nevertheless, reaching and touching the lives of youths in our schools cannot be done in isolation – that is, by the teachers alone or by parents alone or by churches alone. In order to have far-reaching impact on our nation and churches, effective Students' & Schools' Ministry requires the synergic partnerships of teachers, parents, churches and para-churches.

It is in this light that several key organisations concerned with Students' and Schools' work in this country are joining hands to jointly organise this forum with the following theme: **“Celebrating Students' & Schools' Ministry – A Partnership between Parents, Teachers and Churches.”**

It is our earnest prayers that all stakeholders – parents, teachers, pastors, youth workers will participate in and contribute to this forum to help chart the path of transformation for our youths' destiny.

Objectives

- **To bring together** parents, teachers and churches to synergise their roles as agents of transformation through PTAs, Christian Fellowships, Boys' Brigade, Girls' Brigade, etc.
- **To re-look** at schools as an important mission-field and long-term strategy towards developing our youth as nation-builders of tomorrow.
- **To dialogue** on what's been done thus far, what is lacking and what needs to be done to transform Students' & Schools' Ministry.
